Flexible Solutions,

Thank you for inventing the HeatSavr liquid pool cover. We use this product at 2 of our properties. It has saved us from buying pool covers and having to close the pool early every day. With HeatSavr the guests and owners can swim late in the evening and the early risers can swim in the morning. We have used it for two years and the cost of the HeatSavr is less than the price of a pool cover every year.

A handwritten signature in blue ink that reads "Norma Eastes".
