

MEMBER PAGES DEVELOPMENT SHEET

What is a TCS? The Traffic Catcher Site (TCS) is like a mini website that is linked directly to the Chamber's website. The TCS member page is free to all Chamber members, and can be used as an added link to your current website, or may be used as your main website if you do not currently have one. You may design your own site, or let the Bartow Chamber design a professional layout for you for a minimal fee. The Chamber-designed site will include photos, data entry, design of web banners, design of main and header images. Also included in the cost is the design of newsletter advertising on the Premium and Ultimate member packages.
